

WARNING!

To the Ladies of LOUISA

IF A CANVASSER, employed by the Baking Powder Trust, calls at your home and attempts to sell you a TRUST brand of baking powder listen carefully to what she says about other brands of baking powder. If she is especially bitter against a certain brand of baking powder ask yourself why—and exercise your own good judgment as to the truth of her statements.

The big \$20,000,000 Baking Powder Trust attempts in every possible way to throttle competition and to interfere with the sale of all baking powders except their own brands. TRUST advertising and TRUST canvassers attempt to create the impression that only the pure and healthful baking powder is a TRUST brand made with cream of tartar.

Don't be misled—only about 15 per cent of the baking powder used annually in the United States is made of cream of tartar. Don't be influenced by any false, malicious or misleading statements made by TRUST representatives! They have an object! They want you to pay exorbitant prices for TRUST brands! Why should you pay 45 or 50 cents for a can of TRUST-made baking powder when for 25 cents you can buy a pound of the best baking powder possible to manufacture?

Calumet Baking Powder has made good in millions of homes—it is manufactured in the largest, finest and most sanitary baking powder factory in the world by chemists of national reputation. Calumet contains only such ingredients as have been officially approved by United States Food Authorities. It complies with all pure food laws. It received the highest awards for purity and efficiency at Chicago in 1907 and at Paris, France, in 1914, the only International Pure Food show held since Pure Food laws became effective. Calumet is the only baking powder guaranteed to be Pure in the can and Pure in the Baking. The label on every can of Calumet Baking Powder makes the explicit statement that "Bread, biscuits, etc., made with Calumet baking powder will be light, sweet and digestible, entirely free from Tartaric acid, Rochelle salts, Alum or Ammonia." Labels must tell the truth. No other baking powder label makes this statement.

Calumet is used daily in millions of homes for just one reason—its certainty of good results. If you are using Calumet you know why it is called the Cook's Best Friend and you will continue to use it in spite of the efforts of TRUST representatives to influence you. If you are not using Calumet try one can at our risk. Order a can from your grocer. Try it in your favorite recipe. Your money back without question if it isn't the best baking powder you ever used.

CALUMET

Baking Powder Co.

NEWS OF GENERAL INTEREST FROM THE WORLD AT LARGE.

FRIDAY.

Intimations have been received by the American Government that Gen. Carranza intends to reaffirm the orders given to Gen. Trevino directing that American troops be attacked if they move in any direction in Mexico except toward the border. Officials expect, however, that the note will be free from hostile language and continue the discussion of the advisability of the withdrawal of the troops from Mexico.

The twenty-three troopers of the Tenth Cavalry and Lem H. Spillbury, Mormon scout, were brought to the international bridge at 3:15 o'clock yesterday afternoon. Gen. Bell was waiting and gave a written receipt for their delivery. Three of the troopers declared they were certain that several of the American wounded left on the field of battle at Carrizal subsequently were killed by the Mexicans. They said they had been robbed of money and valuables.

Reports have been received in Mexico City that the American troops are moving toward the border and that four towns, abandoned in their retreats, have been occupied by the de facto troops.

Practically all Americans are now out of Mexico, according to dispatches received by the State Department at Washington. Those now remaining have indicated their intention not to leave.

The Russians, in an attack on a

twenty-five-mile front, extending eastward from Kolomea, Galicia, have forced the Austrians to retreat along a large section of the front. The Austrian casualties are said to have been heavy, and Petrograd reports the capture of 221 officers and 10,285 men.

The Germans are said to have made an ineffectual attempt to take Hill 304, but were repulsed by the curtain fire of the French. Intense bombardments continue to the northeast of Verdun.

Italian gains in the Trentino have been kept up, according to the Rome War office statement. A new offensive is said to have been launched with success upon the eastern front.

Robert Pollock, president of District No. 23, Western Kentucky United Mine Workers, resigned yesterday because of accusations of unfaithfulness to the trust imposed in him, he said. A Relief Committee was named at Owensboro yesterday to raise a strike fund after the district meeting had ratified the vote of the local unions to refuse to arbitrate their differences with the operators. About 4,500 union miners are in the district.

A company of the Signal Corps from Lexington will be the first Kentucky unit sent to the border in the belief of National Guard officers stationed at Fort Thomas. Word was received yesterday that equipment for the men had been ordered. Preparations for camp life at the mobilization point continued yesterday, and the scene took on more life with the arrival of the four Louisville companies.

Unless conditions along the eastern branch of the Dixie Highway, in East-

ern Kentucky and Tennessee, are quickly improved the proposed tour in October will have to be abandoned. Secretary Gilbreath announced yesterday in Lexington. Carl Fisher, of Indianapolis, concurs in Mr. Gilbreath's views.

In pursuance to orders received by Col. William A. Colston yesterday every officer and man of the First Regiment, including recruiting detachments will leave for Fort Thomas this morning. It is believed this means that the regiment will be sent to the border soon.

Sir Roger Casement was found guilty of high treason and sentenced to death yesterday for his activities in Germany and Ireland.

Mrs. Clara Elizabeth Jackson died at Danlont, Greenup-co., after a lingering illness of tuberculosis, at the home of her father, Henry Saylor. The remains were shipped to Oil Springs, Johnson-co., and laid to rest beside her husband. She was 22 years of age and is survived by two daughters. The funeral services were conducted by Rev. Howes.

SATURDAY.

Private advices from Mexico City yesterday led Administration officials to believe that a defiant answer to the American note is being prepared by Carranza. The private message, sent by persons in a position to speak with some authority as to Gen. Carranza's attitude, expressed the conviction that a break between the two Governments was unavoidable. There appeared to be complete agreement among members of the Mexican Cabinet, it was indicated, that orders to Gen. Trevino to attack American troops moving in any direction except toward the border be reaffirmed. Some de facto officials wished to go further and couple with this statement in the Mexican reply a defiant demand that American troops be withdrawn immediately from Mexican soil.

Charges made by the United States Government against Mexico were denied in a memorandum issued yesterday in Mexico City. The document, although not a direct answer to the American demands forwarded by Secretary Lansing, is believed to indicate the tenor of the reply to be made by Gen. Carranza. The right of American troops to invade Mexico is again denied, and the blame for the Santa Ysabel massacre is placed upon Charles Watson, an American. Gens. Scott and Funston are accused of bad faith in connection with their conferences with Gen. Obregon, and the charge that the de facto Government is making no attempt to quell the bandit raids is denied.

The French have recaptured the Thiaumont work northeast of Verdun in severe fighting and the British have kept up their bombardment of German trenches and their incursions into German positions by raiding parties.

The Russians have taken Kolomea, an important railway junction leading to Lemberg, in Galicia, and several villages north and south of that point. There have been battles at various points, but with no decisive results.

The Italians have taken Griso and several mountain positions southeast of Trent. Their advance against the Austrians has resulted in the capture of nearly 1,000 prisoners as well as stores and ammunition.

President Wilson, in his speech before the New York Press Club last night, indicated plainly that he is opposed to war with Mexico unless it is absolutely necessary. At the beginning of his address he launched directly into a discussion of the Mexican situation telling of the hundreds of letters he is receiving every day imploring him to avert hostilities except as a last recourse. "I am for the time being the servant of such people," he declared.

More than 2,500 members of the First and Third regiments of the Kentucky National Guard had reached Fort Thomas last night. About 1,000 members of the Second are expected today. The Louisville companies which arrived today were given an enthusiastic greeting by the soldiers already in camp.

George G. Speer, of Frankfort, was named yesterday State Banking Commissioner by Gov. Stanley to succeed Thomas L. Smith, of Richmond, who, appointed by Gov. McCreary, has filled the place since its creation in 1912.

Former President Taft was luncheon guest of Charles E. Hughes at the latter's summer home at Bridgehampton, N. Y., yesterday. On Mr. Taft's departure he intimated that he might make speeches in Mr. Hughes' interest.

Authority of Congress to issue bonds, if necessary, to meet expenses in connection with the Mexican emergency, may be asked as the result of an agreement reached by McAdoo, Simmons and Kitchen.

Passengers on a vessel watching Stockholm reported witnessing a naval engagement between the Russians and a superior German fleet Thursday night.

SUNDAY.

The grand offensive on the western front begun by the British and French on both sides of the River Somme, sixty miles north of Paris, early yesterday morning, has already resulted in a great wedge being driven into the German lines along a sixteen-mile front, with its sharp point penetrating nearly five miles. The British pushed from a short distance east of Albert as far as Montauban, more than five miles away. Other villages, including Hebuterne, Serre, La. Boisselle and

Misery in Back, Headache and Pain in Limbs.

Dear Mr. Editor—For more than a year I suffered with misery in the back, dull headache, pain in the limbs, was somewhat constipated and slept poorly at night until I was about ready to collapse. Seeing an account of the wonderful qualities of "Anurie," prepared by Doctor Pierce, of Buffalo, N. Y., I sent for a box, and before using the whole box I felt and still feel improved. My sleep is refreshing, misery reduced, and life is not the drag it was before. I most cheerfully recommend this remedy to sufferers from like ailments.

Yours truly, W. A. ROBERTS.

NOTE: You've all undoubtedly heard of the famous Dr. Pierce and his well-known medicines. Well, this prescription is one that has been successfully used for many years by the physicians and specialists of Dr. Pierce's Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., for kidney complaints, and diseases arising from disorders of the kidneys and bladder, such as backache, weak back, rheumatism, dropsy, congestion of the kidneys, inflammation of the bladder, scalding urine, and urinary troubles.

Up to this time, "Anurie" has not been on sale to the public, but by the persuasion of many patients and the increased demand for this wonderful healing Tablet, Dr. Pierce has finally decided to put it into the drug stores of this country within immediate reach of all sufferers.

I know of one or two leading druggists in town who have managed to procure a supply of "Anurie" for their anxious customers in and around this locality. If not obtainable send one package by mail to Dr. Pierce for trial package or 50 cents for full treatment.

EDITOR—Please insert this letter in some conspicuous place in your paper.

Mametz, had been swept out of German hands.

Fricourt, three miles east of Albert, was still in German possession in the early evening, but with the capture of Montauban and Mametz to the east and southeast of it and La Boisselle to the northeast, the place was nearly surrounded and its speedy surrender seemed inevitable.

The Entente allied drive was begun against German trenches leveled after a seven-day bombardment, in which more than 1,000,000 shots daily were fired.

The Italian offensive is being maintained with success, according to the Rome War Office statement, especially in the Prosina sector.

Advances for the Central Powers, north of the Dnieper River and further falling back by the Austrians to the south of this river are indicated in the conflicting advices received in yesterday's war dispatches from Berlin and Petrograd.

Although growing impatience is being manifested in Washington over the delay shown by the Mexican authorities in answering the United States note of last week it is almost certain that no action will be taken by President Wilson before Wednesday, as Congress has recessed over the Fourth of July. No official dispatches were received last night from Mexico City as to the time when the answer would be sent, but private advices only tended to confirm the gloomy outlook given to the situation yesterday. It is still understood that Carranza will affirm the order to Gen. Trevino instructing Mexican commanders to resist any movement of the American expeditionary force except in a northeasterly direction.

In Congress the Senate Military Committee, considering the Army Appropriation Bill as passed by the House, made plans to add nearly \$100,000,000 to the measure. Secretary Lansing asked for an appropriation of \$300,000 to bring Americans out of Mexico, and Secretary Baker sent an urgent request for more than \$1,500,000 to meet border expenses.

The Hospital Corps of the First Regiment, Kentucky National Guard, at Fort Thomas, awaiting border service, was made a sanitary detachment. The

companies will be mustered in tomorrow. More than 4,000 Kentucky guardsmen are being prepared.

Dorothy Mason, first to tell Marion Lambert of Will Orpet's engagement to Celestia Youker, said on the stand yesterday that the Lambert girl then remarked: "Sometimes I think life isn't worth living."

The Hay bill, appropriating \$2,000,000 for the relief of dependent families of National Guardsmen called into service by the Government, passed the House yesterday. It now goes to the Senate.

Thousands of teachers, university professors and others have gathered in New York for the opening to-day of the fifty-fourth annual convention of the National Educational Association.

The conference report on the largest Fortifications Appropriation Bill ever sent to the White House, carrying \$25,748,000, passed the Senate and House yesterday.

The increased naval programme, as suggested by the Senate Naval Committee, was formerly approved yesterday in a statement by Secretary Daniels.

Secretary Baker yesterday asked Congress for \$4,616,397 for Panama Canal protection.

MONDAY.

Neither the State Department nor the Mexican Embassy had received any intimation last night as to when the Carranza reply would be received. Officials were also in the dark as to the time President Wilson is willing to wait for the answer. It was estimated last night at the War Department that 50,000 guardsmen had reached or were on their way to the border.

American troops, which crossed the Rio Grande into Mexico near Fort Hancock late yesterday afternoon in pursuit of Mexican raiders, recrossed the river to-day, the trail having been lost. Three troops of cavalry under Capt. Leroy Ellinger pursued eight Mexicans who raided the old post at Fort Hancock and escaped with several head of Government horses.

Approximately 50,000 National Guardsmen from the States in the Department of the East of the regular army now are in mobilization camps. Maj. Gen. Leonard Wood announced tonight. Already at the border or on their way there are 24,078 State troops. These men are divided by States as follows:

Sunday brought no slackening in the great British and French offensive launched in the Somme and Ancre sectors. British and French War Office reports claim a steady advance at certain points in spite of the formidable German resistance.

Fricourt, an important town three miles east of Albert, has been taken by the British and Curly has fallen before a fierce attack on the part of the French. In all the Allies claim to have taken nine villages, fifty square miles of territory along a long front and more than 9,500 prisoners.

The Berlin War Office statement issued yesterday admitted that due to the Allied offensive the Germans had been forced to yield some of the first-line trenches and in one sector an entire division was forced to withdraw, leaving its heavy equipment in the trenches. In connection with the operations now going on aerial activity was marked. There have been many air fights, and Berlin reports that eight British and three French machines were brought down within the German lines and that four others also were shot down. The British admit that three of their machines are missing.

Notwithstanding the offensive to the north, the Germans have not ceased in their efforts around Verdun. They have bombarded several of the Verdun sectors and have launched infantry attacks against the French trenches. Berlin declares that French attacks against Thiaumont were repulsed by curtains of fire, while the French say that this strategic position has been recaptured by them and is held by them.

Gen. Lettritzky's army after intense fighting has captured by storm the Austrian positions in the region west of Kolomea, in Galicia, says the Russian official statement issued to-night. The statement adds that up to the pres-

ent 2,000 prisoners have been taken in this sector.

Continuing their offensive in the Trentino the Italians have begun an attack on the Austrian fortified positions between Zugna, Tofya and Foppiano, says the Italian official statement.

Congress is preparing to complete its programme of financial preparedness with every indication that appropriations this session will aggregate considerably more than a billion and a half dollars. The grand total may exceed by more than \$500,000,000 the record of any previous Congress in the nation's history.

Sir Roger Casement will be given a hearing July 17 on his appeal from the conviction of high treason found against him.

Wines containing not more than 12 per cent. of alcohol are exempt from the provisions of the Russian prohibition law.

TUESDAY.

War Department measures for a new distribution of the border patrol indicate that months of active service along the frontier await the National Guardsmen gathering there. Under the new plan Gen. Funston will be relieved from responsibility for the entire border, and will continue the Southern Department; Maj. Gen. J. Franklin Bell, of the Western Department, will make his headquarters at Douglas, Ariz., instead of San Francisco, and the mid-section, embracing the territory between El Paso and Douglas, will be known as the Department of New Mexico, with its base at Columbus, Gen. Pershing has been asked if he desired to assume the duties of chief of this department, in addition to being commander in the field. It is assumed that this new plan for redistribution of the troops may have the effect of placating Carranza.

Mexican troops are being concentrated along sound military lines, it is stated, from the Gulf of Mexico to the Gulf of California. Troop movements have been almost continuous. It is indicated that Torreon will be the main base of the Mexican army.

The French, advancing to the east of the Mersaouret wood, have captured the Chapteuwood and the village of Feuilieres. Further to the South Assevillers has been taken by an infantry assault, according to an official statement issued by the War Office tonight.

South of Assevillers the French have taken the second line of German entrenchments as far as the outskirts of Estrees, and have advanced beyond the second German line, where they have captured the villages of Buscourt and Flaucourt. The total advance at this section was five kilometers.

"Substantial progress at some points" is reported in the latest official communication issued from British General Headquarters in France. The Germans succeeded in driving some of the British troops from positions which they had captured in the morning, but elsewhere the German attacks were repulsed. Describing the fluctuations in the battle around La Boisselle and south of Thiepval, the statement declares that the advantage on the whole remained with the British.

The Russians have captured 2,300 additional Austrians, and put down two offensives, according to the Petrograd official statement.

An appeal to the Governments and peoples of the United States and Mexico to do all possible to avoid war, through promotion of better understanding, was issued by a joint committee of American and Mexican labor officials after a conference in Washington.

Preparedness, education and plans for world peace were discussed at the opening session of the annual convention of the National Educational Association here yesterday. In addition to the general session, departmental meetings, at which phases of education were explained, were held.

20,000 educators from all over the United States were present. Mrs. Cora Wilson Stewart, president of the Kentucky Illiteracy Commission was on the program.

National Guardsmen at Fort Thomas will celebrate Independence day with salvo of forty-eight shots at noon. Mustering into the Federal service continues, but 1,000 men will be rejected because of physical unfitness.

The German-American Alliance re-elected its officers at the closing session of the New York State convention at Buffalo and adopted resolutions that each member follow his own political faith.

Preparedness was discussed at the opening session of the annual meeting of the National Educational Association, at which Mrs. Cora Wilson Stewart spoke.

The first experiment with convicts working public highways in Kentucky will be made in Bell county.

A Card to Owners of Rural Telephone Lines

We are anxious to see that all lines owned by other parties and connected with us are kept in such condition as to furnish efficient service. Where the owners of rural lines are responsible for their upkeep, we want to co-operate with them.

All lines require a thorough overhauling occasionally if the best service is to be obtained. We recommend that every line connected with us be overhauled at least once a year, and that at least one experienced telephone man assist in this work. The cost of this work when divided among all the patrons of the line, makes the amount paid by each man small, and this cost will be more than offset by the improved service.

If the owners of rural telephone lines in this section are experiencing trouble with their service, we will appreciate their talking the matter over with our Manager or writing us fully. We will gladly do what we can toward helping you improve the condition of your line.
